

7 December 2023, 10:00 – 16:00 | 8 December 2023, 9:00 – 13:45

Venue: Die Wohngemeinschaft

7 December

09:30 – 10:00

Arrival

10:00 – 10:30

Welcome

Lea Ellwardt | University of Cologne

10:30 – 11:30

Health discussion networks among middle-aged and older adults

Amelie Reiner | University of Cologne

What drives the development of loneliness in late adulthood?

Oliver Huxhold | German Centre of Gerontology

11:30 – 11:45

Break

11:45 – 12:45

Bringing the societal in: Loneliness and social networks across the life course in context

Bianca Suanet | VU Amsterdam

Network turnover: Is the number of lost, continued and new personal relationships related to older adult's loneliness?

Theo van Tilburg | VU Amsterdam

12:45 – 13:45

Lunch

13:45 – 14:45

Exploring the network determinants of cognitive abilities' distribution in an elderly population: An agent-based model

Flaminio Squazzoni | University of Milan

Intergenerational relationships and mental health in old age: Insights from personal network data and agent-based simulations

Raffaele Vacca | University of Milan

14:45 – 15:00

Break

15:00 – 16:00

Voices of resilience: Exploring loneliness among older migrants in the Netherlands

Başak Bilecen | University of Groningen

Nobody there knows me': Using a network lens to explore older migrants' narratives of non-return in later life

Louise Ryan | London Metropolitan University

19:00

Dinner (location: Belgischer Hof)

8 December

08:45 – 09:00 *Arrival*

09:00 – 10:00

Well-being in middle-aged and older adults: A qualitative network analysis

Paula Steinhoff | University of Cologne

Ambivalent and consistent relationships: The role of personal networks in cases of domestic violence

Elisa Bellotti | University of Manchester

10:00 – 10:15

Break

10:15 – 11:15

Testing social involvement with generations above and below from an egocentric network perspective

Shira Offer | Bar-Ilan University

Conflict structures of family networks matter for loneliness in later life: The case of a cohort of Swiss older adults

Eric Widmer | University of Geneva

11:15 – 11:30

Break

11:30 – 12:30

Personal network dynamics across the life-course: A Simmelian approach

Betina Hollstein | University of Bremen

Analyzing qualitative network data: An overview of different procedures

Markus Gamper | University of Cologne

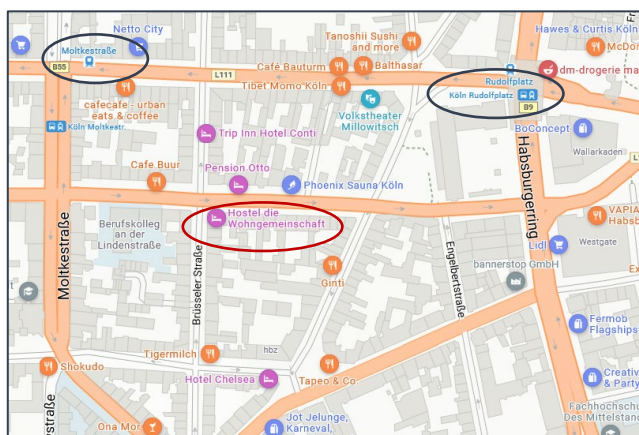

12:30 – 12:45

Farewell

12:45 – 13:45

Lunch
