Betreff: [DGS, Sektion Alter(n) und Gesellschaft]: Stellenangebot

Hi Anna und Claudia,

Wir haben gerade eine Stelle offen, fuer die ich gerne eine(n) Gerontologen/in einstellen wuerde. Die Deadline ist schon nächste Woche, es geht also alles etwas schnell.

Habt ihr noch die Möglichkeit, die Ausschreibung (siehe unten) vorher an die Sektionsmitglieder rumzuschicken?

Gruss,

Kathrin

Doctoral student in the social aspects of AI (4 years, full-time)

LUT University, Finland

We have a vacancy for doctoral researcher (4 years full-time) studying the social aspects of AI.

Research related to labour markets, ageing, the life-course, or social policy is particularly appreciated. Examples of possible topics are: (a) generational differences in attitudes towards AI, (b) AI and older workers, (c) life-course influences within the technology acceptance model of AI, and (d) needs for labour market policy reforms due to the introduction of AI. The exact topic will be decided together with the successful candidate. Quantitative and qualitative methods are welcome.

The position is located within the working group of Prof. Kathrin Komp-Leukkunen at LUT University, Finland. Komp-Leukkunen leads the research group on social sustainability and welfare policies (<https://www.lut.fi/en/profiles/kathrin-komp-leukkunen>). This groups is part of the Department of Social Sciences. It specializes in research on current developments within the labour market, such as digitalization and the green transition. LUT University is located in Lappeenranta, Finland. It is among the world's top 15 university for sustainable consumption and production, and among world's top 11 small universities (<https://www.lut.fi/en>).

The deadline for applications is April 02, 2024. Apply via the Finnish Center for Artificial Intelligence <https://fcai.fi/doctoral-program> . In your application, choose "AI in society and business" as your specialty, and "Kathrin Komp-Leukkunen" as your potential supervisor.

Kathrin Komp-Leukkunen

Professor of social sustainability and welfare policies

School of Engineering Sciences

Department of Social Sciences

LUT University

Yliopistonkatu 34
